

Bunching at VAT Threshold: B2C vs B2B over Time

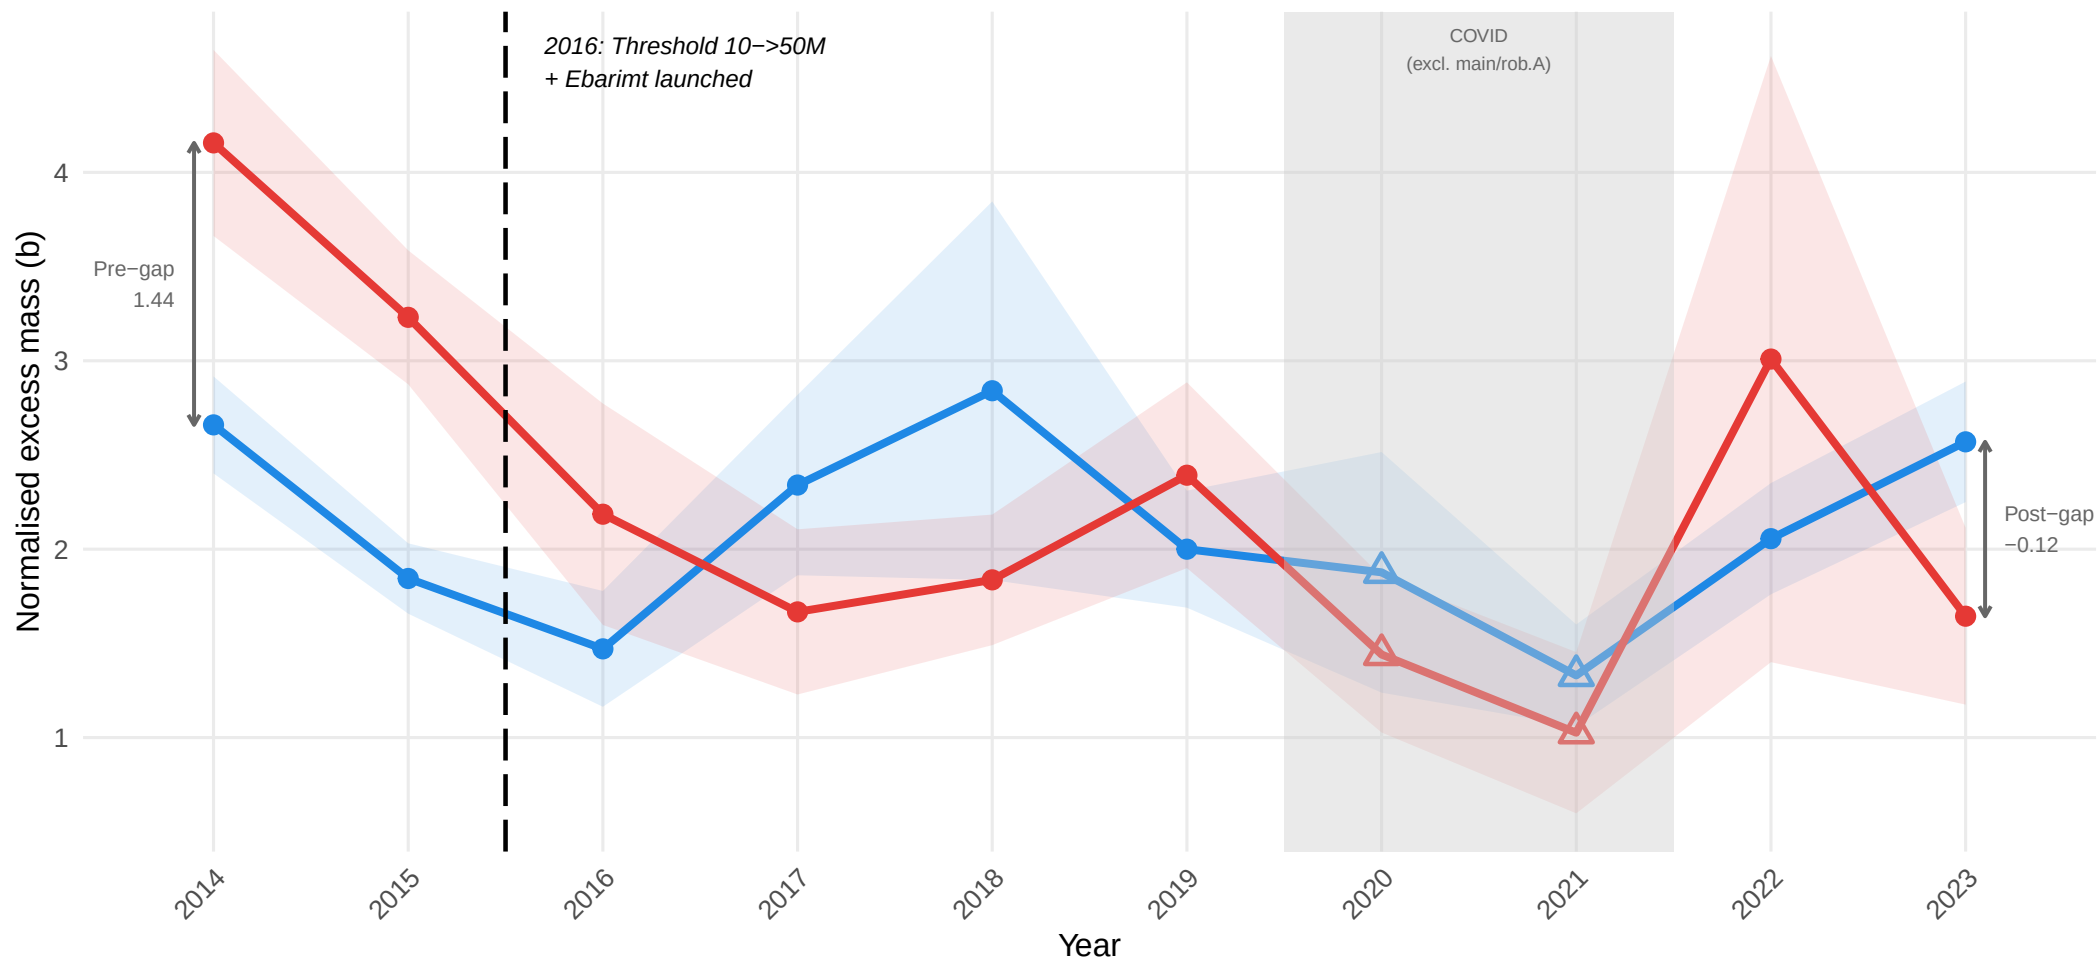

DiD = -1.562 | Pre-gap = 1.44 → Post-gap = -0.12 (108% narrowing)

B2B (Wholesale + Manufacturing)

B2C (Retail + Food service)

B2C (Retail, Food service) vs B2B (Wholesale, Manufacturing). b = excess mass at threshold / mean counterfactual density. Shading = 95% CI from bootstrap (500 replications). Triangles = 2020–2021 (COVID; excluded from main spec and robustness A).
